

BRIEF INTRODUCTION

Our law firm is located in Rome at Via A. Mordini No. 14 and in Latina, at Via Duca Del Mare No. 16. We deal with the resolution of legal matters across Italy and the world through our network of highly qualified professionals in Europe, especially in Germany and Spain.

Di Resta Lawyers is a member of some of the most important organizations and associations in Europe and worldwide, including the Italian Committee to the International Chamber of Commerce (ICC), and other more sector-specific entities such as the European Privacy Center, to which it regularly provides its opinion on draft laws and following public consultations, also by participating in international conferences.

Among the many services we provide to our clients, our main areas of specialization are: Information and Communication Technology Law, Privacy and Data Protection Law, Intellectual Property Law, International Business Contracts and Banking Law.

We provide an individualized approach to all matters in order to guarantee our clients' interests. We offer Italian, English and Russian speaking clients high quality, specialised and friendly services, be it in the form of litigation or legal advisory, across a broad range of legal subjects. Our legal advice is accurate, clear, pragmatic and business focused.

OUR SPECILISED LEGAL SERVICES

Information and Communication Technology Law

Intellectual property rights in the Internet domain, including websites, multimedia products, online services, software, electronic banking and financial services, digital

distribution of protected works, assistance in information protection, information technology agreements.

We advise and support on all matters relevant to data protection laws, including:

- electronic communication: internet issues (e-commerce, e-reputation, etc.) and regulatory advice;
- Centralisation of IT infrastructures in companies and groups, e.g. the introduction of central personnel management tools and skills databases;
- Integration of external service providers and outsourcing providers;
- Promotion and establishment of customer relationship management systems and customer loyalty programmes;
- Affiliate marketing, email retargeting, and other individualised methods for attracting existing customers and potential customers;
- Rules on personal use of IT tools, especially email and the internet;
- E-commerce;
- dematerialisation: advanced electronic signature, archiving, legal analysis of all roles and responsibilities involved in carrying out this target.

We can help you deliver global strategies and objectives while steering you through a myriad of local differences which continue to complicate the data protection scenarios worldwide.

Data Protection Law

Our law firm assists its foreign clients with commercial interests in Italy and internationally by delivering integrated legal solutions, especially connected to Data

Protection legislation. As a privacy consultant or external data protection officer, we guarantee comprehensive and qualified outsourcing service as follows:
